## **SENATOR DIANNE FEINSTEIN ENDORSES JERRY MCNERNEY FOR CONGRESS**

United States Senator Dianne Feinstein today endorsed Jerry McNerney and praised his campaign for change. In her 2000 Senate run against former Republican Rep. Tom Campbell, Feinstein won Alameda, Contra Costa, San Joaquin, and Santa Clara counties by overwhelming margins.

"Jerry McNerney is not a politician," said Feinstein. "He is an expert on clean energy and that's just what we need in Washington – clean energy."

"One of the most important things we can do to protect our national security is to reduce our dependence on Middle East oil," continued Feinstein. "Jerry knows that global warming is a serious threat to California. He also knows that wind and solar energy are a big part of the solution. I am pleased to give my support to Jerry McNerney for Congress."

"I am honored to have Senator Feinstein's support," said McNerney. "Like Senator Feinstein, I will work with both Democrats and Republicans to address the pressing issues facing the people of California. Rich Pombo is a corrupt Congressman who works for the oil and gas lobbyists who fund his negative campaign ads. I will fight to bring clean air, good jobs, and real security to the people who elect me to Congress on November 7th."

###

*Jerry McNerney is a nationally recognized expert in wind engineering and renewable energy, with a PhD in mathematics. During his career in wind energy, McNerney's work contributed to saving the equivalent of approximately 30 million barrels of oil, or 8.3 million tons of carbon dioxide – the main greenhouse gas – as well as other harmful pollutants. The Democratic nominee for California's 11th Congressional District, Jerry has been married for 29 years and has three grown children.*

**Q: You're accusing your opponent of running attack ads, but haven't you run attack ads yourself?**

*A: No. I've run ads that have shown the difference between my opponent and myself. That's completely different from his mean spirited attacks on my family and me.*

#### National Security Speech: A Stronger America, A Safer Missouri

On Harry Truman's birthday, Claire McCaskill delivered a major national security speech titled "A Stronger America, A Safer Missouri" in Truman's hometown of Independence. McCaskill's speech included a call for a new Truman Committee to root out wasteful military spending in order to pay to better equip our troops and to support our veterans when they return home.
